DRAFT SUBMITTAL OF THE PROCESS FOR DETERMINING THE REMEDIATION
CATEGORY OF INDIVIDUAL HAZARDOUS SUBSTANCE SITES (IHSS) FOR
OPERABLE UNITS (OUS) 1 THROUGH 16 - SGS 226 94

Ref (a) W S Busby ltr WSB 009 94 to R J Schassburger Submittal of the
Evaluation of Individual Hazardous Substance Site for the Industrial Area
Operable Units (8 9 10 12 13 14) January 19 1994

EG&G Rocky Flats Inc is submitting the attached preliminary draft of the Process for
Determining the Remediation Category of Individual Hazardous Substance Sites (IHSSs)
Volume I and the IHSS Evaluation Forms Volume II both dated March 24 1994 Both of
these volumes are henceforth referred to as the IHSS Evaluation Volume I describes the
process for evaluating IHSSs into three categories 1) no further action 2) potential early
action and 3) deferred to follow the normal RCRA [Resource Conservation and Recovery
Act] Facilities Investigation/Remedial Investigation (RFI/RI) or to be linked to
Transition/Decontamination and Decommissioning (T/D&D) Volume II contains the
supporting documentation for the information presented and summarized in Volume I

The IHSS Evaluation is the result of efforts from the Operable Unit (OU) managers and the
ongoing efforts of the Environmental Restoration Management (ERM) Accelerated Cleanup
Working Group The purpose of the IHSS Evaluation is to provide a basis for
categorization of IHSSs in order to identify the most appropriate remediation alternative for
each IHSS and to allow for expedited cleanup of certain IHSSs This IHSS Evaluation
process supersedes previous categorization efforts e g the detailed spreadsheet and
narrative that listed all the IHSSs for the Industrial Area (IA) OUs as in the above referenced
letter Additionally these evaluation documents are submitted to fulfill the requirements of
the Quality Action Team issue number 21

The process for the IHSS Evaluation was sent formally to the Department of Energy/Rocky
Flats Office (DOE/RFO) on January 19 1994 as referenced above DOE/RFO sent the
IHSS Evaluation process to the Environmental Protection Agency (EPA) and the Colorado
Department of Health (CDH) for review and comment on February 10 1994 To date
EG&G has not received any comments from either EPA nor CDH regarding the application
of the process The original IHSS Evaluation as referenced in the January 19 1994
submittal was to be applied to the IA OUs (8 9 10 12 13 14) However through the ERM
Accelerated Cleanup Working Group the application of this process was found to be
beneficial for all the OUs Since the submittal of the process to DOE/RFO EG&G has
applied this evaluation process to all of the IHSSs for all the OUs not just the IA OUs
EG&G believes that the results of this effort should be communicated to both EPA and CDH
in a working meeting forum with DOE/RFO and EG&G EG&G proposes that DOE/RFO
review the IHSS Evaluation documents and involve both EPA and CDH early on in the
review process
